

International Scientific Committee of the EASTS Report of Recruitment of New Committee Members 2014-2015

Since July 2014, the Recruitment Sub-Committee (RSC) has recruited new members of the International Scientific Committee (ISC) of the EASTS.

Unfortunately, we had not got enough applications until the first deadline, the end of August 2014. Therefore RSC decided to extend the deadline, until the end of February 2015. Although the number of applications is still less than expected one, we now announce the result of the selection.

In the selection, we have the following requirements those are the same as the last recruitment;

- must be an EASTS member
- must have four or more years of full-time work experience in transportation-related research or practical fields, after having received a title of either doctoral degree or APEC engineer (or other professional title officially certified as equivalent to APEC engineers).
- must have enough capability for reviewing papers and passion for the activities of the EASTS-ISC.

However, we changed the second requirement, to “must have three or more.....”, considering that we do not have enough applicants.

As a result, we have chosen the following 21 candidates for Academic Paper management Track (APT), no candidate for Practical Paper management Track (PPT). Unfortunately, we rejected 7 applicants because of the shortage of years after getting Dr. or Ph.D. degree.

The RSC strongly hope that the following 21 new members would make a great contribution to any activity of the ISC.
