

Contribution of EASTS and Future Direction of Transportation Studies

**Cheng-Min Feng,
Professor**

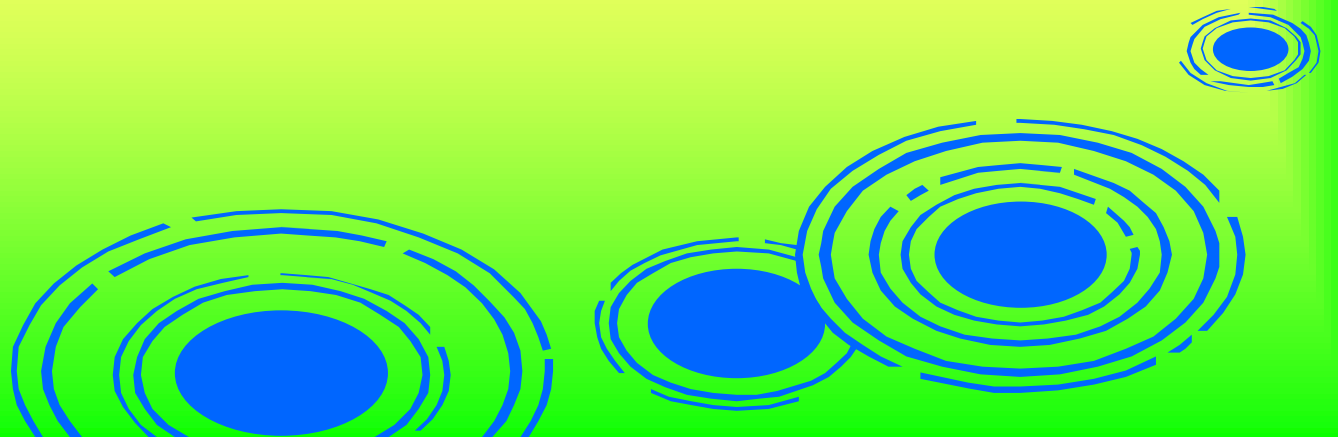

**Institute of Traffic and Transportation
Chiao Tung University, Taiwan**

10th Anniversary Symposium of EASTS

Oct.15, 2004, Tokyo, Japan

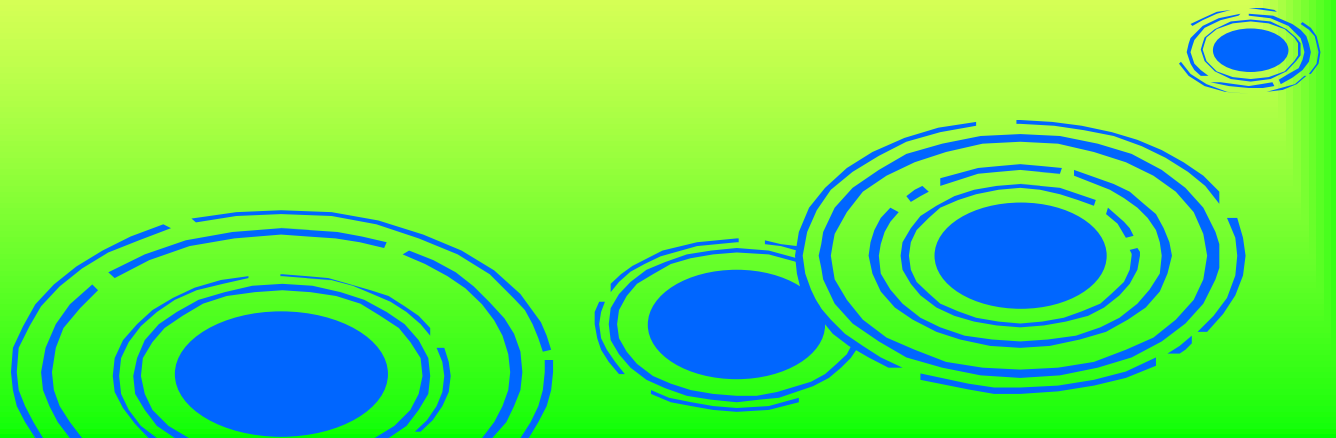

Contribution of EASTS

Contribution of EASTS in Taiwan

- Provide an International Publication Platform for Transportation Researchers
- Share Knowledge and Experience Among EASTS members
- Coordinate Research on Motorcycle Problems
- Increase the Value of Local Transportation Society

Future Direction of Transportation Studies

Integration

- **Integration between Transportation Systems**
- **Intermodalism between Modes**
- **Transportation and Tourism**

Impact Evaluation

- **Economic Impacts of Airport and Harbor**
- **Economic Value Assessment for Transportation Pollutions and Safety**
- **Energy Demand Forecasting of the Transportation Sector**

Regional Cooperation and Comparison

- **Transportation Market Analysis in the East Asia Region (Passenger and Freight Market)**
- **Transport Policy and Mechanisms in the East Asia Region**
(Subsidy, Taxation, Investment, Regulation)
- **Survey of Countermeasures for Transportation Safety in the East Asia Region**

Technology and its Impacts

- **Travelers Acceptance and Behavior with ITS**
- **Impacts of IT on Logistics**

Transportation Planning

- **Freight Transportation Demand and Supply Chain Change**
- **Urban Transportation Planning from Regional Development Aspects**
- **Capacities and Traffic Characteristics of Rural Highway**
- **Decision Support System for Sustainable Transportation**
- **Transportation and Social Problems (Social Equity)**
- **Disasters and Transportation Risk Management**

Transportation Financing

- **Risk Analysis of BOT Projects**
- **Financing Schemes for BOT Projects**

The End

Thank You Very Much!
