Asian Transport Studies (ATS) is an official journal of the Eastern Asia Society for Transportation Studies (EASTS) (<http://www.easts.info/>). ATS was founded in 2009 and aims at providing useful insights into solving Asia-specific transport-related issues from both theoretical and practical perspectives. It treats all types of transport modes and all issues in transport sector. Even though papers dealing with the Asia-specific issues are especially welcome, other papers related to transportation studies are also within the scope of this journal.

ATS papers are accessible online for free.

Publication Policy

ATS is a refereed journal (<http://www.easts.info/publications/ats.html>). It is published biannually; one volume consists of four issues, in which two issues are published every year. Issues 1 and 2 are published in March and September of the first year, respectively, which include selected papers from the EASTS conference. The EASTS conference is held every two years. Issues 3 and 4 are published in March and September of the second year, respectively, which include general papers. The general papers are submitted from any authors from all over the world.
